Wheel Kit

**FOR ULTIMATE SPINNER
& MOVER BASES**

Instructions:

- On the bottom side of the base, use **firm pressure** to push the wheels into place. Alternate between the locking and non-locking wheels.
- Place base wheel-side down on a level surface, and stack your planter on top. Grip your planter along the side and move or rotate slowly.
- Lock the three locking wheels when stationary for maximum stability. **Do not use on an uneven surface.**
